THE NETHERLANDS: **ZEELAND** OFFICE

SPAIN: **ANDALUSIA** OFFICE,

**CATALONIA** OFFICE

USA: **SOUTHERN CALIFORNIA** OFFICE

& **AccessAdvisr** (International Review Partner)

### **Inclusivity, Independence, International**

Since ATO stands for traveling as independent as possible, we chose to use 3 smaller circles in our logo. These circles represent wheelchair users, people with assistance dogs, and people using a cane. This group refers to the senior traveler as well as to people who are visually impaired.

The number of 3 smaller circles in the accessibility logo is also carefully chosen. This number is to many a number of unity. ATO stands for inclusivity, independence and international travel, the 3 core elements of ATO.

**AccessibleTravel.Online** was founded to give the independent traveler using a wheelchair, or the tourist with limited sight, a starting point online. He wants to travel the world, visit the highlights, book a flight and find great deals online for his favorite hotel or other accommodation. **That should not be a 6 months full time job.**

### **Online rain forest**

The huge rain forest of websites offering information on accessible travel is just too large to visit. All information we share at AccessibleTravel.Online has been carefully checked by one of the ATO offices, whether it is accommodations, tourist sites or accessible tours offered by a travel agent specializing in accessible travel.

## Accessibility benefits all

Accessibility is about such a variety of factors that you can never be conclusive. However, you can do all you can to increase the accessibility standards to the highest level possible to be of service to as many people as possible. On the other end you can start implementing company policy that a minimum level of accessibility is ensured. And, by all means, share that online, so people can prepare their visit. We strongly recommend websites keep an accessibility page in the 'Visit' menu or on the front page. Good information is key when planning travels. We offer website scans and advice.

## Our Company Values

Independence | Comfort | Easy Access | Inclusion | Awareness | Reliable | Accessible

Assistance dogs make the difference. Travel agents specializing in accessible tourism make the difference. We provide information and services to improve accessibility. Because independence is important. For everyone.

## Our Business Philosophy

On the ATO platform you will find accessible travel information, travel products and apps, accessible accommodations that will make your trip even better. Ultimately we want to become the worldwide platform, giving useful and practical information for all travelers with a disability, whether they are wheelchair users, visually impaired, or people traveling with assistance dogs. ATO will be about country requirements, airline and airport facilities or accessible museums, venues, restaurants, and all those other things that make travel a real adventure.

We work with local offices – currently in Africa, Australia, Europe and the United States – to ensure that information shared has been checked. Local offices make the difference, working with hotels, museums, theme parks and other venues.

The **ATO FOUNDATION** is the non profit organisation affiliate of ATO. The foundation offers a variety of services such as awareness training, Meet & Greet ATO team members, tourism school/academy visits / staff training, Hotelcheck – ATO audit, Charity Events.

ATO is specialising in promoting accessible tours and accommodation, travel apps and gear, bringing all that you need in travel planning together in one place.

Please contact our office in Amsterdam or one of the regional offices if you are interested in working with us at [AccessibleTravel.Online](https://www.accessibletravel.online)
